In the heart of the Baix Penedés region, the 60 years old family vineyards, are grown in a chalky and very poor soils, under the influence of the Mediterranean sea. The old vines are surrounded by rich biodiversity, encouraging natural balance to be found in both the vineyards and the wine.

Vineyards of Biodiversity

Azul y Garanza is now a more complete and exciting viniculture experience with the addition of new enriching varieties, soils, climates, collaborators and wines. Wild-natured vines, full of biodiversity and astonishingly beautiful; organic and endowed with special faculties which result in one-of-a-kind wines. Wines which are a clear reflection of the place they come from”
